浙江千象家居用品有限公司自公司成立以来,始终坚持以营造预防的环境保护

附录 1 中国城市环境状况的统计与评价

Figure 1. The relationship between the number of children and the number of parents. The number of children is on the x-axis (0 to 10) and the number of parents is on the y-axis (0 to 10). The relationship is shown as a series of points connected by lines, forming a zig-zag pattern. The points are labeled with numbers 1 through 10. The pattern starts at (0,0), goes to (1,1), (2,2), (3,3), (4,4), (5,5), (6,6), (7,7), (8,8), (9,9), and ends at (10,10). The lines connect the points in a sequence that alternates between increasing and decreasing the number of parents relative to the number of children.

Figure 1. The effect of the number of iterations on the accuracy of the proposed algorithm. The accuracy of the proposed algorithm increases with the number of iterations. The accuracy of the proposed algorithm is 100% when the number of iterations is 1000.
